

WE'RE FOR GUAM

These past 2 years, we have been blessed with the opportunity to meet and talk with thousands of you. You warmly received us in your homes or on the street. And we have listened to your concerns and have a keener understanding of what matters to you most.

We are the only team with a comprehensive plan to address the things that matter to you: fighting crime, reigniting our economy, lowering taxes for small businesses, attracting new industries with rising wages, and fixing our finances. We are committed to making Guam Good again.

Our opponents have hurled ugly slurs, calling us names not worthy to repeat. No matter the hurtful lies, no matter the personal attacks, no matter the tricks, we have looked beyond all that noise and have focused on the only thing that matters: you.

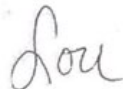

We respect the issues and things that matter most to you and your children. Like you, we love this island and we love all people who make Guam home. We respect your privacy and trust.

You can expect that to continue from us even after this election is over.

In a few days, you'll be asked to decide who will you Trust as your Governor and Lt. Governor of Guam. We humbly ask you to give us your trust to move Guam into a future that is safe, prosperous, and protective of you and your family.

This Tuesday, November 6, Make Change Happen.
